The Hunter Mill Defense League cordially invites you to a **Historic Marker Dedication and Unveiling Ceremony**

On Saturday, November 21st, from 10-11 a.m. at the intersection of Hunter Mill Road and the W&OD Trail.

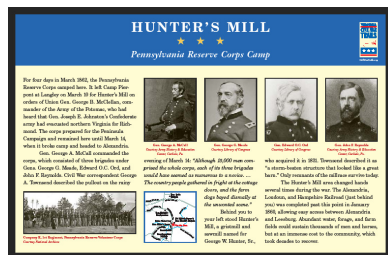

Join your Hunter Mill neighbors, Congressman Gerry Connolly, Delegate Plum, Chairman Bulova, Supervisors Hudgins, Smyth, and other local dignitaries as we unveil five historic markers.

The Hunter Mill Defense League has spent years researching the history of the corridor, and has a long track record of bringing great history products to the community. We are very pleased to team with the Northern Virginia Regional Park Authority to place these markers.

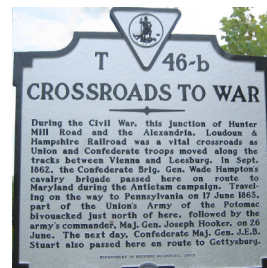

These five markers commemorate the Hunter Mill Road / W&OD Trail as a key crossroad in the Civil War, with large amounts of troop traffic passing and encamping on the way to and from some of the major battles of the war. One marker notes the many skirmishes which occurred here as well as the great friction among the residents of the corridor whose Union and Confederate loyalties were evenly split. Another marker shares the history of the rail line and Hunter Station, while yet another tells the sad tale of the execution of Reverend Read, a Union spy.
